EMMA – Give a Smile's™ FIRST PATIENT

Personal Details

Age	10
Family	lives with Mum in Melbourne
Pets	Dog called Spotty
School	Grade 5
Favourite Subject	Science
Favourite Pastime	Reading and Girl Guides
Favourite Magazine	Disney Girl
Talents	Cooking pancakes and apricot chicken

Orthodontic Details

Orthodontist	Dr Ted Crawford
Diagnosis	Significant malocclusion (bad bite) with severe prominence of upper front teeth - 13.5mm ahead of lower teeth (2mm is ideal). The upper jaw is narrow, the teeth are crowded and the lips cannot meet comfortably.
Treatment	Fixed braces for around two years to align all teeth, correct the bite and produce a wonderful smile!

Ends.
